The Mike Wilson Swine Research Day

Please join us for our 9th Annual Mike Wilson Swine Research Review Day on May 22, 2012 at the Arboretum Centre to hear about the latest pork research at University of Guelph!

The University of Guelph pork research program with over fifty associated faculty members working in multiple disciplines including: veterinary medicine, animal science, epidemiology, microbiology, immunology, nutrition, genetics, food safety, public health, economics, engineering and molecular biology. The day will showcase the excellence and diversity of research and provide a forum for faculty, graduate students and others to share research results, techniques, ideas and challenges, as well as to create a forum for discussion, networking, and potential collaboration between interested individuals and research groups across campus.

This year, we are proud to host keynote speaker Dr. Peter Davies, Professor, University of Minnesota and kindly sponsored by Mitacs Elevate. Dr Davies will be discussing public health and food safety issues related to the pork industry in a talk entitled: The Paradox of Progress. The talk will examine the phenomenon that as we do things better, we are perceived as doing them worse.

The program will include oral presentations covering a wide range of on-going research projects at Guelph. There is always something for everyone!

**Date and Time:** Tuesday May 22, 2012 9:45 am – 3:30 pm. (Lunch is included)

**Location:** The University of Guelph Arboretum Centre

**Registration:** Registration is free but if you plan to come, please RSVP by email to Karen Richardson at krichard@uoguelph.ca in order to help us plan the catering.

**Posters:** We invite submission of posters and will award prizes to graduate students or undergraduates with the best poster. If you intend to present a poster please email to Dr. Vahab Farzan at afarzan@uoguelph.ca with a one-page abstract of the research to be presented.

For more information please contact Dr. Vahab Farzan: 519 824-4120 ext 54472, afarzan@uoguelph.ca
