Canada’s premiere research internship program providing interns with the opportunity to transfer their skills from theory to real-world application, while companies gain a competitive advantage by accessing high-quality research expertise.

HOW IT WORKS

Through Mitacs Accelerate, graduate students and postdoctoral fellows from over 50 universities apply the very latest tools, techniques and innovations bringing a fresh perspective to the collaboration with industry partners.

- **Accelerate Standard:**
  Scalable in 4 month internship segments
  - Projects can range from a single 4 month internship segment to multiple segments combined together to accommodate longer projects.
  - Cost-shared with Mitacs matching 1:1 the industry partner contribution.

- **Accelerate Clusters:**
  Option for projects with broader scope
  - Intended for longer, multidisciplinary projects involving multiple interns, universities and industry partners.
  - Minimum 3 interns and 6 internship segments.
  - Cost-shared model with improved leverage.

$15,000 research grant
($7,500 Industry Partner
$7,500 Mitacs)

- $10,000 minimum internship stipend
- $5,000 other project-related expenses

$80,000 research grant
($36,000 Industry Partners
$44,000 Mitacs)

- $10,000 internship
- $10,000 internship
- $10,000 internship
- $10,000 internship
- $10,000 internship
- $10,000 internship
- $10,000 internship

$20,000 other project-related expenses

Through unique research and training programs, Mitacs is developing the next generation of innovators with vital scientific and business skills. In partnership with companies, government and academia, Mitacs is supporting a new economy using Canada’s most valuable resource — its people.

Details
- Interns spend approximately half of their time on-site with the industry partner; the remainder is spent at their university working on the project under the guidance of a faculty supervisor.
- Open to all academic research disciplines.
- Projects are accepted from all industry sectors including: manufacturing, technical innovation, business processes, IT, health and social sciences, design, and more.

Benefits
- **University & Intern**
  - No deadlines or competition: applications are accepted at any time.
  - Application process: simple, easy and quick; typically approved within 4 to 6 weeks.
  - International students and post-docs are eligible.
  - Real-world exposure: interns and faculty apply the latest tools and innovations to real issues.

- **Industry**
  - Peer-reviewed: ensures high quality research and greater likelihood of project success.
  - Industry-friendly: Mitacs and the university manage all administrative and financial issues; intern is not a company employee.
  - Increased innovation: gain novel solutions to challenging problems.
  - Projects may be eligible for SR&ED tax credits.
