RESEARCH PROJECT OVERVIEW, OUTCOMES AND IMPACT

1. Briefly describe the research project. *Please include any necessary background information.*

2. Describe the research goals and whether or not they were achieved.

3. Please summarize the research outcome(s).

4. Describe the methods and techniques applied.

5. Describe how the time you spent at the industry partner impacted the direction of your research.

6. What benefits did this research project provide to the industry partner?

7. What benefits did this research project provide to the home academic supervisor?

8. What benefits did this research project provide to the student?

9. Discuss any future research plans resulting from this project.

10. List any publications, patents, abstracts, conference presentations, and/or licenses which resulted, or that you anticipate will result, from this research project. *Please include any additional comments.*

COLLABORATION DETAILS

1. Was this project connected to an existing international collaboration, or did the project lead to the creation of a new international collaboration? *Please describe.*

2. Do you anticipate further development to your current international collaboration, or the creation of additional international collaboration(s) as a result of this project? *Please describe.*

EXECUTIVE SUMMARY (300 word maximum)

Please describe using language understandable to a layperson:

- The nature of the problem the project addressed
- Goals achieved
- Benefits to all applicants
- Any positive outcomes from the project, including:
papers published, patents obtained, etc.

SIGNATURES AND CONFIRMATION

By signing below I agree that the information contained in this Final Report is an accurate reflection of this Accelerate International project. I understand that Mitacs may share this document with government funding agencies, partners, and prospective partners of Accelerate International.
