

Additional information on the Globalink Programs

Some of our program videos reference additional program information that is not currently on our website. This handout includes those program details, listed by initiative.

Globalink Research Internship

Please see our [website](#) for a list of current partner countries.

Globalink Graduate Fellowship

Additional information on eligibility criteria and application process can be found on our [website](#).

Globalink Research Award for travel abroad

A list of eligible destinations can be found on our program [webpage](#).

Globalink Research Award for travel to Canada

Applications are awarded in partnership with Mitacs' international partners and Canadian university partners.

Please see our [website](#) for a list of current international and university partners.

Accelerate International

The maximum number of Accelerate International internships each student can conduct depends on their degree level:

Master's students: up to 4 internships

PhD students: up to 8 internships

Postdoctoral fellows: up to 9 internships

Additional eligibility criteria can be found on the Accelerate International [webpage](#).
